Dear Steve Davis,

Thank you so much for taking the time to come talk to our class and teach us about yoga. We had a lot of fun learning about the history of yoga as well as learning some of the yoga poses. We never knew about how music was incorporated into yoga. You taught us a lot about the importance of the role yoga can play in living a healthy lifestyle.

One of our classes favorite parts of your presentation was when you played the flute for us. It really engaged our minds into learning yoga and meditation. Again, thank you for driving out here and teaching our class. Good luck on your trip. We hope you have a blast and learn a ton!

Sincerely,

Ms. Rabe's First Period Class
